Work Experience

06/2010 To Current

FREELANCE
WEB DESIGNER & DEVELOPER

- Planned, developed, tested, deployed, and maintained web applications
- Effectively translated client requirements into application designs and system requirements
- 8 years UX/UI & HTML/CSS
- 2.5 Years Full-stack Javascript experience with MERN (MongoDB, Express, React, NodeJS)
- Creating logos, banners and buttons for websites
- The back-end use of Node JS, Express JS, MongoDB and Mongoose, the complete MERN Stack to provide RESTful API.
- Experience creating multiple CRUD (Create, Read, Update, Delete) applications
- Implemented generating the verification hash code using Node JS and added user validations and user permissions by using Node JS.
- Created React JS reusable components (multi-field form elements), background file uploads.
- Extensively used GIT for version controlling and regularly pushed the code to GitHub
- Developed cross - browser/platform HTML 4/5, CSS 3, and JavaScript to match design specs for complex page layouts while adhering to code standards.
- Worked with clients and senior user experience designers to understand the branding strategies and design goals to define strategy, layout and features for the web sites/applications design.
- Developed HTML prototype and UI deliverable such as wireframes, screen mock-ups and interface design.

05/2017 To Current
